ABOUT US

M. Cornell Importers, Inc. is over 58-years strong, specializing in the design, creation and distribution of top-quality giftware items to 12,000 retailers throughout North America. We are business-to-business only and do not sell directly to consumers. We offer 1,000 different steins, mugs, banks, flasks, tumblers, jiggers, decanters, goblets and chalices. We also offer other glassware, barware, decorative wooden boxes and board games. We are a full-service source to our customers, offering broad selections of styles, themes, price ranges, and materials.

To see our full-range of unique products, place orders, or download our other catalogs, please visit our website: www.cornellgifts.com

OTHER AVAILABLE CATALOGS

Our previous steins and accessories catalogs included all of our licensed product lines. Due to our ever-expanding line of products, we now feature the **Jack Daniel's**, **John Deere**, and other licensed product lines in separate catalogs or sell sheets. This enables us to update our printed materials more frequently, ensuring that you have the latest available products and fewer discontinued items.

Other catalogs available include our **Wooden Box Catalog**, **Licensed Beer Brand Catalog** and our **Custom & Promotional Catalog**. We also have pdf-format sell sheets for: **Case/IH/Farmall**, **Military/Firefighter/Law Enforcement**, and more. All catalogs and sell sheets can be downloaded directly from our website or requested through customer service.

Some products shown may be prototypes—final product may differ slightly from prototype image. Assorted sets may contain labels which may be substituted at our discretion due to availability.

WEBSITE FAQ

Q: Where are the prices?

A: M. Cornell Importers sells only to established businesses — we do not sell directly to consumers. Anyone may browse our catalog, but you must have an account to view pricing and make online purchases. Setting up your account is easy. Once your Resale Tax ID # has been confirmed we will e-mail your account number within one business day. If you are a consumer, please feel free to contact us with your zip code and we will provide you with a list of retailers in your area.

Q: Are all the items listed on the website in stock?

A: No. Our entire line is listed on our website and is available for order; however, some items may be temporarily on backorder. If you need to know if a specific item is in stock, please contact us.

Q: Do you cancel backorders automatically?

A: Not normally. We only cancel backordered items if the total amount of the order remaining is less than \$30.00 or if requested by the customer. Once a year in January or February we send a notice of all backordered items still on order for your records.

Q: How long will it take to receive my order?

A: Most orders leave our warehouse within 5-7 business days. Shipping time is based on FedEx and UPS standard shipping times varying from 2-5 business days depending on your location.

Q: Is next-day or rush service available for urgent orders?

A: We will do everything possible to accommodate urgent requests. Please contact us and we will provide shipping options, which may differ from product to product.

WWW.CORNELLGIFTS.COM

Ordering is easy! Simply follow the instructions to create your online account, and you will be ready to begin fully secured ordering at your convenience. As always, our customer service representatives are available during normal business hours to provide you with any personal assistance you may need.

Search our entire product line by theme, item number or keyword. Get web-only deals and product offers. Be the first to see product updates, new concepts and download new catalogs.

GERMAN-AMERICAN HISTORY STEIN

In the tradition of our WW Team history steins, the German-American history stein celebrates the diversity of America's heritage. Each stein features a timeline of significant historical events, images of famous figures, and icons of notable contributions to American culture. Top and bottom bands feature census data showing number of German descendants per state.

WW TEAM STEINS

We are proud to feature 30 new & existing WW Team history steins in our line. Since the company was founded by Joachim Malessa in 1985, Westervald Team GmbH has been a true industry leader in stein design and innovation. They earned global appreciation for converting the traditional German stein into an educational experience, by showcasing the complete history of a stein's main theme in a timeline and panoramic format. Joachim's talents in design and marketing opened stein collecting to many new groups, individuals and military personnel worldwide.

Joachim passed away in February, 2007. He was our dear friend and is greatly missed by his family and many friends. We are pleased that his family carries on the rich tradition of WW Team steins, with his wife Karola as president and his son Björn as designer. We are sure you'll enjoy these great new and classic steins!

NÜRNBERG BRIDAL CUPS

Legend has it that the design for this cup originates centuries ago in Nürnberg, where a goldsmith fell in love with a noble mistress. Her wealthy father discouraged their union, but he ultimately agreed to consent to their marriage if the goldsmith could make a cup from which two people could drink at the same time without spilling any of the wine.

Inspired by love and with skillful hands, the goldsmith created a masterpiece. He sculpted a girl with a smile as beautiful as his own true love's. Her skirt was hollowed to serve as a cup. Her raised arms held a bucket that swivels so that it could be filled and then swung towards a second drinker. Thus he won the hand of his true love.

Each bridal cup has an area in which to engrave names and wedding date, and also includes a printed copy of the "Legend of the Nürnberg Bridal Cup."

HORN OF CUCHULAINN

This horn celebrates the greatest of the Irish Myth-heroes, CuChulainn. On both sides of the horn, in relief, is CuChulainn on horseback with a dog, hunting a stag in the woods. The branches & roots of the trees transform into an elaborate knotwork pattern. The mouth of the horn features a faithful dog with sword. The horn tip is a raptor's head. A leather strap for carrying or hanging the horn is included.

CUSTOM BEER BOTTLE LIDS

These metal bottle caps are miniature replicas of traditional German stein lids. Raised-relief sculpting is used to create a figural, wraparound metal lid design featuring hops, malt, and wheat detail. The heights are adjustable, allowing the lids to fit almost every size and shape of beer bottle on the market. Tarnish-free and resilient zinc alloy material is much more durable than the pewter or plastic versions on the market.

Custom options include: engraving, embossing, epoxy resin decals, and figural/3-dimensional sculpts. Epoxy resin MOQ: 300, Custom MOQ: 500.

Full-color,
epoxy resin
decal insert.

BEER BOOTS

Tradition says that a Prussian general promised his troops that he would drink beer from his boot if they won an upcoming battle. Having won, the general ordered a glass made in the shape of a boot to keep his promise.

SALT GLAZE STONEWARE

Salt glaze is stoneware with a glaze of glossy, translucent and slightly orange-peel-like texture which is formed by throwing common salt into the kiln during the high temperature firing process. Sodium from the salt reacts with silica in the clay body to form a glassy coating of sodium silicate. (Source: Wikipedia)

Our salt glaze items are: freezer-safe, microwave-safe, dishwasher-safe, lead-free, cadmium-free, durable, and break-resistant. 100% made in Germany, in Hoeher-Grenzhausen since the 15th Century!

THEWALT STEINS

On these 2 pages and throughout this catalog, we pay tribute to the 120-year-old Albert Jac. Thewalt stein factory, owned and managed throughout its entire history by 3 generations of Alberts: Founder Albert Jacob Thewalt (1857–1939), his son Albert Johann Thewalt (1884–1957), and his grandson Albert Jakob Thewalt (1926 to present) The M. Cornell family and company are proud and grateful for the 50+ year friendship and business partnership with Albert Jakob and Erika Thewalt!

Established in 1893 and producing steins until 2009, the Thewalt factory earned global recognition with emphasis on unsurpassed quality, using only the best materials and workmanship. What truly set Thewalt steins apart was their merger of talent, tradition and innovation. That innovation and creativity came in many forms: new body shapes, new glazes and decorating techniques, new lids, and the introduction of a gallery of sculptors and designers: the well-known sculptor Wilhelm Kamp (1897 - 1914), famous artist Wilhelm Albouts (1934–1938); Cesare Cardinale as the Master Sculptor and main contributor to the largest portion of post-WWII Thewalt steins, followed in recent years by Joergen Christmann. American Sculptors James Lim, Ralph Massey and Bob Maurus also contributed their talents to special projects as well. The technical abilities of Horst Gundlach as the Production

Albert Jac. Thewalt

Albert Joh. Thewalt
1884–1957 (photo about 1910)

Albert Jak. Thewalt
1926–present (photo about 1993)

Manager for 30+ years were invaluable; converting original art to a consistently reproducible format. Eberhard Kunzendorf was the Master Painter, who led the hand-painting department and personally decorated many of the most critical and complicated pieces. Paul Seelgen was the main Pewtersmith as well, responsible for casting as well as assembly of the pewter lids and figurines onto the steins.

M. Cornell is proud to continue the Thewalt tradition and legacy, with the ongoing production of Authentic German steins from 60 original Thewalt molds. These steins are produced in the same time-honored tradition, entirely made in the Westerwald ("Western Forest"), just a few kilometers from the original Thewalt factory. Several original skilled Thewalt workers are still making these new steins for us! Today as always, Quality and Tradition remain our top focus. –M. Cornell

ANTIQUE REPRODUCTIONS

On these two pages we proudly present authentic German steins made from molds acquired from the original factories of Simon Peter Gerz and Paul Werner Corzeliuss. All these steins are still 100% made in Germany, just a few kilometers from the original Gerz Sessenbach and Corzeliuss Hoehr Grenzhausen factory sites.

The **Corzeliuss** steins are on the bottom half of page 48; we trust you'll recognize several favorites and best sellers. We are thrilled to reintroduce the Corzeliuss Zeppelin stein on page 49 as well, now available in two entirely new color executions.

The **Gerz** steins on these pages are introduced for the first time in this catalog. Many are over 100 years old! They appear on the top half of page 48; All steins on page 49 are Gerz molds as well (the only exception being the Corzeliuss Zeppelin Steins).

GLÜHWEIN

Glühwein is a traditional beverage that is offered during the Christmas holidays, usually made from red wine, heated and spiced with cinnamon, cloves, star aniseed, citrus, sugar and occasionally, vanilla. It is sometimes drunk "mit Schuss" (with a shot), with rum or another liquor added.

JAMES MEGER

Artist James A. Meger strives for emotion, drama and impact in his wildlife paintings. As a result of his personal commitment to excellence, Meger's work not only meets the demanding standards of science, anatomical accuracy and attention to detail, but his aesthetic sense also pleases the eye of the most discriminating collector.

We deeply regret having lost a great friend, but know his memory lives on his beautiful art.

PROFESSIONS SERIES

This collection of 36 new steins pays tribute to professions and trades both new and old. Nineteen are featured in this catalog and additional 17 are available online. Front panel features a beautiful, full-color illustration and profession title written in German. Right side panel features a one-color coat of arms, often showcasing the symbols of European guilds, some dating back over 500 years. Left side panel features more German text.

CUSTOM PROJECTS

All steins start out as an idea—we make those ideas a reality. We offer glass, pewter, stoneware, and porcelain steins. Custom steins can be as simple as placing a decal or silkscreen design onto an existing body, or they can involve an entirely new body. A pewter medallion can be attached either to the stein's body or to the lid of the stein. Existing stein bodies from our catalog can be customized by placing a logo or "button" design within a certain area. A flat pewter lid can be embossed with a company logo or design. Lids are interchangeable. Anything is possible!

For more information on our custom steins or to get your project started, call us at **651-633-8690** or visit our website at www.custom-steins.com. A full-color Custom Steins Catalog is also available upon request.
